

PACK-IT SPECTER COMPRESSION CUBES by EAGLE CREEK

MAKE THE MOST OUT OF YOUR LUGGAGE, DUFFLE OR BACKPACK SPACE by Kathleen /Packsmart Pro

Lay your shirt flat, fold in the sides and roll from the top into a burrito. Make sure your burrito is not longer than your cube.

Roll up 6 shirts. Place 3 shirts in the cube on the bottom and lay 3 rolled shirts on the top.

First, zip up using the light gray zipper. Second, use the dark gray zipper to compress the air out and zip all the way around again. This is a double zipper cube.

The air will compress out and your cube will become super flat.

Your cube is ready for packing in your luggage, duffle or backpack.

- Eagle Creek cubes are made out of parachute material, light weight, water repellent, PVC free and washable.
- Cubes are great for keeping your packed items organized and maximizes your packing space.
- Compression Cube ideas;
- Socks, t-shirts and underwear
- Silky, polyester blend blouses
- Puffy nylon jackets or down vests
